THIS awing has but a partial application.—
A very little knowledge of the physiology of the hair teaches that want of care deprives away of that most becoming ornament to the person. Those who would desire to preserve their heads from ballease, sure thinnexes onthe scalp, prevent discobration, and secure a gleasiness and softness of teature, should use Engle's Hyperion Plant.

FOR VICE PRESIDENT, WILLIAM A. GRAHAM, or posts carolist.

> Electors. ELISHA HARRIS, of Coverery. ELIDER HANDEN, of Newpork NEOS D. SMITH, of Frovidence, UHARLES ALLEN, of North Kingstown,

Halt is easid that the witnesses who came to Newport last Tuesday to create a distorbance of the peace, in regard to the liquor cases, applied to Gov. Allen for protection, on their return home; the Gov. quietly informed them that he could do nothing in the matter, as it did not come within his province to shield men from the discharge of a few eggs,-he also very properly told them, as we are informed, that if they had remained at home, as they should have done, they would have escaped all trouble of this kind.

If these men come down on Wednes day, we trust that they will not be molested in may manner; let them tel what they know, respond to the War rants against thera, and after it is all over, and, if guilty, have been properly punished, let them return quietly to their homes and learn a lesson by their folly, not to make feels of themselves ngain in such a ridiculous manner as in the present case.

HIPA man attempted to sell a dismond ring, on Thursday, at Mr. Mum ford's store; the latter, suspecting that all was nut right, called in Sherift Cozzens who happened to be near, who are rested the man. He was taken to jail and quite a number of valuable articles were found upon his person. The dia mond ring was stolen, in the morning, from one of the Bathing houses at the Beach, which had been lest there by the owner who was in the surf. The thief is still in jail, awaiting his trial.

00-We have seldom seen such tasteful things as the baskets of flowers arranged by Thomas Galvin & Son; no one who has not seen their Garden can form any idea of the choice children of the sun and sail which bloom there. The rush to Galvin is indicative of the love of Flora, a lady who literally rewards her lover with bloom which they cannot envy, and perfume which all the elements of the world could never produce.

UF Our readers will remember the grand Concert which is to be given at Ocean Hall, on Monday evening, hy Madamo Wiedemann, assisted by able musical talent. She comes very highly recommended from the Conservatoile of Paris. The Germanians are to compose her orchestra; and this unnouncement alone will fill the house. It will be a rate musical treat.

The uses to which are la put, are AR Excess of JEWELRY ecoming more various every day. We have not only iron railroads, diron but from bedsteads, from furniture, and Iron crockery. We have from stores, iron cottages, iron fish hooks, iron viaducts, and iron lighthquees. We have reaux, but from ball rooms - the lutter article being just ordered by the Queen at Manchester. We have fron stools, iron rocking chairs, and to a few years will have from over-coats and from counterpaner, theele of iron being already very common. Whether we shall ever not be at all surprised; however, if we did.

Ocean House, Aug. 13, 1852. EGITOR OF THE NEWS!

I learn from your valuable paper of this merning, that Madame Anna Widemann, assisted by Mono. Clenibrel and Senor C. Bassini, and the Germania Society, will give a grand Concert at Ocean Hall, on Monday evening next. As a friend of genuine talent und true moral worth, permit we to commend the concert and the artists to the kindest favor of this community. With the in-dividuals I enjoy but a limited personal acquaintance; but to their talent and proficiency in the " Att divine, " I am no stranger. They will far exceed the expectations entertained, in regard to them, however high those expectations may be. There are several persons at this house who have enjoyed the musical efforts of these artists, both in the Opera and the Concert room, in this country and in Paris; and they give the assurance that they have few equals and no superiors. They come to us with European fame, commended by the best judges of music in England and France. Common justice induces me to furnish this simple commendation for your journal ; and if not inconsistent with your sense of propriety, I solicit for it au insertion in the columns of to morrow's News.

Truly, your friend, H. TIMS, of New Orleans.

P. S. Madame Widemann and Mons Genibrel have recently concluded a most successful engagement in our city of New-Orleans.

Rev. Mr. Fowles of Philadelphia, will preach at Zion Church, to-morrow afternoon, at 4 o'clock.

UrZion Church will be open for Divine Service to-morrow, evening; at 8 o'clock, when the Rev. George H. Clark will present the claims of the American Sunday School Union.

General Pillow says that General Pierce, after falling from his horse at Conteres, "lay aff night among the sharp pointed rocks of lava." Judge Douglass ways that these rocks of lava were the label. prongrams ways that these rocks of laval were "red-hot." Now we demand of the Colonels of the Tiques, who tell us that they were eye-witnesses of Gesieral P'e mistortune, why they didn't take him to comfortable quarters instead of permitting him to lie all night upon the red-hot rocks. There are four of them; and rocks. There are four of them, and surely they might, by each taking a leg or sa sem, have got him off the red-hot rocks. There would have been no inger of their burning their test, no we understand they are always provided with salamanderskin boots.

You should be askamed of yourselves, Colonele, thus to have neglected your future nominee. Broiling all, day under a hot sun is nothing at all to broiling all night upon burning lavo. The Concard (N. H.) Patriot says that Gen-Concord (A. 11.) Pattor says that earl Pierce is a kind hearted, peaceable man, who never got into a broil in his life, but if he didn't get into a broil on this occasion, there's no lruth in the "little giant."—Louisrille Journal.

A PRAYER .-- The Chaplain in the Indiana Legislature recently opened the acasion with a general prayer, which he closed with the following invocation:— "And the Lord have mercy on our leg-islators. Spore their lives until they re-turn to their homes, and then put it into people to keep them there, and return men of temperate habits and sentiments, who will do some good."

WEST POINT MILITARY ACADEMY. The Board of Visitors to this Institution for the present year have made their report to the Secretary of War, in which they recommend the following among other reforms :-

That 62 cadets, two from each State, be authorized, and that the term of instruction be extended to five years; that their puy be increased from \$24 to \$28 20 per month, the present amount being insufficient with the most rigid economy; that the pay of the superintendent be increased from \$2,000 to \$3,000, he being compelled, for several years past, to expend \$6,000 over his pay to entertain distinguished visitors; that the salaries of the officers generally be in creased ; that a riding hall be creeted for the exercise of cadets in winter .--\$2,000 have already been appropriated, and \$12,000 more are required. That cavatry exercises be introduced in the studies of the institution, additional buildings and stables erected, another officer of draguous stationed there; that the study of lagic be dispensed with and that ancient and modern history, army papers, as returns, &c., physiology, and the evidences of christianity,

be introduced with the increased term.
